with environmental and industrial applications

Dissemination Activities, Training and Persistence on the Web

Mg. Gabriel Tolosa *Lic. Silvia Martinelli*

- March,1 2013 -

Bienvenidos! Welcome! Bienvenú! Bem vindo!

» Main goal (WP5)

"... activities concerning spreading of excellence,

exploiting results and dissemination knowledge in order

to increase the visibility and efficiency of the network at

regional, national and international level"

» Includes:
- Dissemination activities
- Creation of a network
- Identification of opportunities
- Training on formulation and evaluation of proposals
- **Creation and maintenance of a website**
- **Supporting the e-learning platform**
- Training courses in Argentina, Chile and Brazil

» Main requirements

» Web site

» Information from multiple sources (partners)

» Multiple languages

» Medium-term support (4 years)

» Different tools (and data-formats)

» Main requirements

» Online training

» Supporting courses and seminars

e-ducativa
comunidades en red

» Supplementary tools

> » *Actually, we are developing a software application to manage documents and multimedia files from all the partners...*

ASADO:
"**A S**imple **A**pplication for **D**ocuments **O**rganization"

Goals:
* Integrate all documents from each partner
  in a common space
* Control sent documents (and versions)
* Maintain a centralized repository
  (i.e. to produce the yearly newsletter)

» **Work in progress**

» Site design and construction
look&feel + functionality + initial content

» User profiles
Profiles, access grants

» ASADO
Actually, in testing phase

» SEO (Search Engine Optimization)
Site visibility in commercial search engines

» Demo

» Take a look...
